December 15, 1972

Dear Mr. Maughan:

In response to your letter of November 24, 1972, I am pleased to provide the information you requested regarding Hawaii's participation in the "209 Program" under PL 92-500. We are pleased to see that the Water Resources Council is responsible for that important section.

We are tentatively considering the identification of three high priority problem areas: Maunaloa Bay, Pearl Harbor, and Kaneohe Bay, all within the Island of Oahu. These would be high priority for Level B studies and also for the provisions of Section 208 of that Act.

I have not yet made a definite designation of an organization to develop area-wide waste treatment management plans, but we are seriously considering a single statewide Water Quality Planning Advisory Committee which would serve as the designated group to implement Sections 102, 203, and 209 and possibly Section 208. When our plans for such an official designation become firm, I will notify you.

Coordination among the agencies responsible for implementing the Act, including Section 209, is the responsibility of the Office of Environmental Quality Control, Office of the Governor, 550 Halekuanila Street, Honolulu, Hawaii 96813.

We have, in the past, made fairly intensive use of consulting and contracting agencies to assist our State and local agencies in developing water quality plans. We would expect to continue this process, particularly if Federal financial assistance is available for this purpose. Consultants

not only provide objectivity to such recommendations, they also permit a more rapid completion of the planning project.

We hope this information is useful to you in your report, and look forward to continued beneficial efforts with the Water Resources Council.

Aloha, and may the Almighty be with you and yours always.

Sincerely,

James R. Russell

Mr. W. Don Maughan, Director
United States Water Resources Council
Suite 800
2120 L Street, N.W.
Washington, D. C. 20037

SENATE CONCURRENT RESOLUTION

PROVIDING FOR THE OPTIMAL PROTECTION OF THE ENVIRONMENT.

WHEREAS, the quality of the environment is vitally important to the welfare of the people of Hawaii; and

WHEREAS, the early adoption of a strong State-wide environmental policy is necessary for the optimal protection of our environment; and

WHEREAS, such State-wide policy must be made specific and explicit in providing directions to actions which can control growth to assure that the optimum quality of environment and life style are preserved; and

WHEREAS, it is necessary to integrate the development of these policies into the public planning process of the State if these goals are to be achieved; and

WHEREAS, such integration calls for action by the public planning agencies to consider alternative specific environmental policies for applicability, feasibility and effectiveness; now, therefore,

BE IT RESOLVED by the Senate of the Seventh Legislature of the State of Hawaii, Regular Session of 1973, the House of Representatives concurring, that the Governor appoint a Temporary Commission on State-Wide Environmental Planning to include:

- 1.) The Planning Director, or his highly placed representative, from each County.
- 2.) A qualified representative from the public sector of each County, nominated by the respective Mayors of Kauai, Maui, Hawaii and Honolulu.
- 3.) The Director, Chairman, or his highly placed representative, from the following State Agencies:

Agriculture
Budget & Finance

Education
 Health
 Labor and Industrial Relations
 Land and Natural Resources
 Land Use Commission
 Office of Environmental Quality Control
 Planning and Economic Development
 Social Services and Housing
 Taxation
 Transportation

- 4.) A Member from the County Council of each County.
- 5.) A Member of the Hawaii State Senate.
- 6.) A Member of the Hawaii State House of Representatives.
- 7.) A Chairman possessing distinguished credentials; and

BE IT FURTHER RESOLVED that the function of the Temporary Commission on State-Wide Environmental Planning is to provide policy guidance for State General Planning by incorporating into State and County plans those specific policy statements which assure fullest consideration of the environment and human life styles and to assign responsibility to the appropriate agencies for implementing the plans and policies; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to Governor John A. Burns; the respective Mayors and Planning Directors of the Counties of Kauai, Maui, Hawaii and the City and County of Honolulu; the County Councils of Kauai, Maui, Hawaii and the City Council of the City and County of Honolulu; the Director or Chairman of the State Departments of Agriculture, Budget and Finance, Education, Health, Labor and Industrial Relations, Land and Natural Resources, Planning and Economic Development, Social Services and Housing, Taxation, and Transportation; the Chairman of the Land Use Commission; and the Director of the Office of Environmental Quality Control.
